Dear Madam,

**APPRECIATION**

On behalf of Weisi Primary School and the entire community, I wish to thank you sincerely for providing us with solar lighting system to enhance teaching and learning especially at night. In a deprived community like ours, where most parents cannot afford electricity for their homes, we felt this has come at the right time in order to improve the academic performance of our students and we have nothing to offer than to say “thank you” for your timely intervention.

It is our hope that our relationship will continue to strengthen so that we can continue to enjoy the benefits of your good works.

May God bless you; “long live ROTARY CLUB, long live our sister, mother and unity: Madam Justina Amidu”. Thank you.

Yours faithfully,

Abisa Stephen A. P.

(Head Teacher – Weisi Primary)
